james.whitfield@gmail.com | +1 (312) 555-0187 | Chicago, IL | linkedin.com/in/jwhitfield

PROFESSIONAL SUMMARY

Results-oriented Senior Software Engineer with 7 years of experience building scalable backend systems. Specialised in Python, AWS, and distributed architecture. Proven track record of leading cross-functional teams and delivering high-impact products on schedule.

WORK EXPERIENCE

Senior Software Engineer | Salesforce, Chicago, IL

March 2021 – Present

- Architected microservices handling 4M+ daily transactions using Python and Kafka.
- Reduced API latency by 42% through Redis caching and query optimisation.
- Led a team of 6 engineers across US and India time zones.

Software Engineer | Groupon, Chicago, IL

July 2018 – February 2021

- Built RESTful APIs serving 2M+ daily active users using Django REST Framework.
- Migrated legacy monolith to containerised microservices on AWS ECS.
- Implemented CI/CD pipelines using Jenkins and GitHub Actions.

Junior Developer | Accenture, Chicago, IL

August 2016 – June 2018

- Developed internal dashboards using React and Node.js.
- Participated in Agile sprints, daily standups, and sprint retrospectives.
